Fibertex F-35

NorGeoSpec 2002

Date:	2006-08-25
Valid until:	2008-08-25
Manufacturer:	Fibertex A/S
Product:	Fibertex F-35
Applicable to specification profile:	3
Certificate	No 0608-QC-1127
Certification procedure:	QC
Required level of delivery control: 1 identification test for every 50000 m <sup>2</sup> , but minimum 1 id.test for deliveries over 10 000 m <sup>2</sup>

<sup>1</sup>Mean values and tolerances given on a CE document with revision date: 2006-05-16  
The CE document is approved by Notified body ID no: 0799

<sup>2</sup>The maximum tolerance is applied for determination of the 95% conf. limit when tolerances given on the CE-mark document exceeds the maximum allowable tolerance required in NorGeoSpec 2002. The products are continuously audited to verify that the characte

<sup>3</sup>The certification values for these characteristics is to be used in delivery control. For the mass per unit area the allowable variation range is given while the minimum value is given for the static puncture strength.

SINTEF is **Notified as a competent body** related to directive 89/106/EEC by the Norwegian Royal Ministry of Trade and Industry

Notified body ID no: 1278

Products: Geotextiles and geotextile related products

Tasks: Inspection/Certification
